Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

The 112 second paragraph rejection and the objection of claim 5 is hereby withdrawn due to the amendment filed on 6/11/10.

Claims 2-7 and 10 are rejected under 35 U.S.C. 102(b) as being anticipated by Yuan et al (6190,720).

Yuan et al disclose a composition comprising sterol or stanol esterified with fatty acids and emulsifiers. The sterol or stanol derivatives can be esters of sunflower oil, cotton seed oil, palm oil etc... The emulsifier can be one emulsifier or mixture of emulsifiers selected from the group of lecithin, monoglyceride, polysorbate, sodium stearyl lactylate, DATEM, glyceryl monostearate. The amount of emulsifier is present in the composition in amount of about 1% to about 5%. The amount of sterol or stanol ester is from about 30-90%. The amount of the composition is used in food products ranges from about 5-20%. The foods include baked products such as bread, cakes, brownies etc... (see col. 1 line 63 through col. 2 line 25, col. 3 lines 43-62, col. 4, col. 6 lines 22-42)

The amount of emulsifier can be about 1% and the amount of sterol ester can be up to about 90%; thus the ratio of emulsifier to sterol can be from 1:30 to 1:90 when 1% emulsifier is used. The ratio can range from 1:6 to 1:18 when the upper range of emulsifier is used. Both of these ranges include ratios falling within the claimed range. In the food products, the amount of emulsifier can be 1% when 5% of emulsifier is used in the composition and the composition is used in amount of 20%. The amount of sterol can vary and includes amount recited in claim 10. For example, if 40% sterol ester is

used in the composition and 20% of the composition is used in the food, the amount of sterol ester is 8%.

In the response filed 6/11/10, applicant argues the action does not point to the amounts of the recited components used in baked products and Yuan et al indicate that the amount of food ingredient incorporated into a food composition will depend on the formulation of the food product. This argument is not persuasive. Yuan et al disclose the amount of food ingredient will depend upon the formulation but they also disclose the typical ranges will be from about 5-20% and the food products includes baked products such as breads, cakes, pies, brownies, cookies etc. Thus, Yuan et al explicitly teach adding the food ingredient in the range of about 5-20%.

Applicant's arguments filed 6/11/10 have been fully considered but they are not persuasive.

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
